Education

CMR University (CMRU)

Bachelor of Technology – Information Technology — GPA: 7.9 / 10.0

Bangalore, Karnataka

July 2023 – May 2027

REVA Independent PU College

12th Grade (PCMC) — Percentage: 90.02%

Bangalore, Karnataka

June 2021 – March 2023

Sri Lakshmi Public School

10th Grade (CBSE) — Percentage: 80.5%

Bangalore, Karnataka

June 2020 – May 2021

Experience

Taranova Solutions Private Limited

— Software Engineer Intern

Bangalore, Karnataka (On-site)

| Apr 2026 – May 2026

Python • FastAPI • Django • LLM Agents • REST APIs • NVIDIA DGX

- **Autonomous LLM Workflows & Integration:** Engineered an **autonomous, multi-agent LLM workflow** using **FastAPI, Django**, and **NLP feature engineering** for scanned PDF invoice classification and metadata tagging, automating structured JSON synchronization to **Tally** with 100% **GSTN schema compliance**.
- **Model Fine-Tuning & Performance Optimization:** Self-hosted and fine-tuned **Gemma 3 (27B)** on an on-prem **NVIDIA DGX Spark**, cutting per-invoice data validation latency from **9s to 2s** while eliminating paid API dependencies and establishing robust backend ingestion pipelines.

Refurbo

— Software Engineer Intern

Remote

| Jan 2026 – Mar 2026

React • TypeScript • Tailwind CSS • Redux • Git

- **Modular UI Component Architecture:** Developed a responsive **React, TypeScript**, and **Tailwind CSS** component library across 10+ production screens, implementing high-performance image features that directly reduced checkout drop-off rates.
- **State Management & Code Reliability:** Hardened application **state management and error boundaries** to eliminate rendering failures, maintaining a **zero-defect pull request (PR) record** across cross-device deployments using **Git**.

Unacademy

— Operations Analyst Intern

Bangalore, Karnataka (On-site)

| June 2025 – Aug 2025

Python • Flask • Google Apps Script • SQL • Figma

- **Process Automation & REST APIs:** Architected a **Flask REST API** synchronized with **Google Apps Script** to automate internal reporting workflows, achieving a **95%+ reduction** in manual operational processing time alongside **Figma UI/UX prototyping**.
- **Data Extraction & Competitive Intelligence:** Built a scalable **Python data extraction and scraping pipeline** to collect and analyze metadata from **500+ competitor streams**, delivering critical market distribution insights for marketing campaigns.

Projects

nextlimiter — Open Source Distributed Rate Limiting Library

🔗 npmjs.com/package/nextlimiter

- **Open Source & Distributed Systems:** Published a production-ready **Node.js rate limiting library** featuring **5 algorithms**, Redis-backed atomic Lua scripts eliminating race conditions across distributed instances, and built-in adapters for Express, Fastify, Next.js, and Hono.
- **Observability & CI/CD:** Integrated **Prometheus metrics**, webhook-on-block alerting, custom CLI load-testing tools, and automated deployment pipelines via **GitHub Actions**.

Full-Stack E-Commerce Platform with Automated Order Fulfillment

🔗 motokidstoys.com

- **Platform & Automated Fulfillment:** Architected a full-stack platform (**Next.js, Django REST Framework, PostgreSQL**) integrating **Razorpay** and **Shiprocket APIs** to auto-generate shipments on payment confirmation, cutting manual order placement by **90%** and boosting **search/query throughput by 4x**.
- **Client Communication & Ops:** Automated customer notification workflows for order status updates, reducing **manual communication overhead by 80%** while managing inventory variations through a role-based admin dashboard.

Achievements & DSA

- **Alog-Rythm 2.0 (2025):** Secured **1st place** — Web Crafting Track, Gopalan College of Engineering.
- **Silver Spectrum Techfest 2025:** Secured **1st place + Rs. 10,000 cash prize** — New Horizon College of Engineering.
- **Technotsava 8.0:** Secured **1st place** — Frontend Track, SJCIT CSE Hackathon.

Technical Skills

Languages: Java, Python

Frontend & Backend: React.js, Next.js, Tailwind CSS, Node.js, FastAPI, Flask, REST APIs

Databases & Cache: MySQL, PostgreSQL, Redis

Integrations: Razorpay, Shiprocket API, Google Apps Script, npm Publishing

CS Fundamentals: Data Structures & Algorithms, Operating Systems, DBMS, OOP
